Emergency At the sound of the alarm bell, Dot the fire dog and her firefighter friends know exactly what to do. Within minutes, their fire truck races out of the station. They're off to rescue people -- and animals -- who need their help. Bold, vibrant oil paintings by award-winning artist Lisa Desimini capture the excitement, beauty, and courage of some of America's most heroic men and women. At the back of the book, Dot's "Fire Safety Tips" will help children, parents, and teachers understand what to do

in case of a fire and how to prevent a fire from starting. Brimming with action, Dot the Fire Dog has endless appeal to all those who are fascinated by fire trucks, fire gear, and the splendid Dalmatians that have become an American institution.
