Frogs certainly do not fly, but when kids look at the picture, then lift the bright red aflower flap, a they discover butterflies and they do fly. The picture as surprise flap is a cloud that hides birds. They fly, too. Do jellyfish jump? Do sheep dive? Kids will find these and more questions as they turn this book as pages. With bright, cheerful illustrations, a lively text, and laugh-producing flaps for toddlers to lift, "Animal Flappers Books" ask questions and reveal answers behind each illustration as amusing flaps. Two delightful play books are filled with fun for preschool boys and girls. They treat kids to a display of funny animals, silly questions, and a set of two flaps on every

two-page spread. Each question's answer is hidden behind one flap, and a funny surprise second answer is hidden behind the other. Each book presents six sets of animals with their questions.
