isbn:9780399247798

A new, oversized board book format for one of the most popular Spot titles. Here Spot and his friends can explore all the different colors, shapes, and numbers they find as they play together. These concepts are presented in a bold way that will be easy for young children to understand. There are red things, like Spot's wagon and sailboat; there are round things, like Helen's drum; and there are lots of things to count, like

Steve's balloons. Here is a fun, clear concept book that young children will love.
