CosmoGIRLs know: real style is personal, individual, one-of-a-kind—not plucked ready-made from a shelf. Each person has to create it for herself...and that's where this collection of very cool projects comes in. From a ribbon-front halter top with attitude to chic vintage-inspired necklaces, from gracefully decorated ballet flats to a warming winter body treatment, these ideas are fun, fabulous, and fast to finish. Plus, all the clothes, accessories, and beauty products allow ample room for creativity,

giving young designers free rein with colors, embellishments, and other detailing, so each item becomes hers and hers alone. All the projects are labeled for level, with easy-to-follow directions and appealing photos—and everything fits a teen's budget perfectly.
