出版者:Routledge

出版时间:2017-11-20

装帧:Hardcover

isbn:9781138235229

This book presents a great deal of new primary research on a wide range of aspects of early modern East Asia. Focusing primarily on maritime connections, the book explores the importance of international trade networks, the implications of technological dissemination, and the often unforeseen consequences of missionary efforts. It demonstrates the benefits of a global history approach, outlining the complex interactions between Western traders and Asian states and entrepreneurs. Overall, the book presents much interesting new material on this complicated and understudied period.

作者介绍:

Kenneth M. Swope is a Professor in the Department of History at Southern Mississippi University, Hattiesburg, USA.

Tonio Andrade is a Professor in the Department of History at Emory University, Atlanta, USA.

目录: Table of Contents

Introduction: Jack Wills and His Work and Influence.
