Firefighters, zookeepers, astronauts, deep-sea divers, paleontologists, and archaeologists - everyone uses math. This series gives young readers a chance to learn about each of these exciting jobs, and use their math skills along the way. Each book offers a variety of problems that teach math concepts and help readers understand the connection between math skills and daily life. The series features: - Correlations to math curriculum standards- Math problems that build and reinforce a variety of math skills- Helpful math tips- Answer key- A science connection through the topics discussed
