Children are fascinated by animals that prowl and pounce in the night. By focusing on night animals, this series provides a captivating introduction to life science. At the same time, the simple bilingual text helps ELLs build important vocabulary and reading skills. Each book in the series includes: - Academic language that supports the first-grade science curriculum- Structural supports, such as a strong photo-text match- Bilingual text that provides a home-school connection- Diagrams showing how particular adaptations such as echolocation and eyesight work- Exciting, full-page

photographs of night animals in action
