isbn:9780531174760

- Kids are endlessly fascinated by animals and animal behavior.- Format includes large color photographs, easy-to-read fonts, and simple interior design.- Series features include vocabulary preview and review pages plus special backmatter pages that invite readers to think further on the study topics.Grades K-4 Science StandardsLife Science: III- Life cycles of organisms.- Plants and animals have life cycles that include being born, developing into adults, reproducing, and eventually dying. The details of this life cycle are different for different organisms.- Plants and animals closely resemble their parents.- Many characteristics of an organism are inherited from the parents of the organism, but other characteristics result from the individual's interactions with the environment.
