出版者:Scholastic

出版时间:2007-9

装帧:HRD

isbn:9780439783514

For children who have graduated from MATH FABLES, MATH FABLES TOO will help kids learn to count and, more important, lay the groundwork for addition. When children learn to group numbers at an early age, everything else -- place value, arithmetic, problem-solving -- flows naturally. These animal fables will also encourage kids to become more interested in science by building on their natural fascination with animals of the oceans, jungles, deserts, lakes, and backyards. Math and science -- a

winning combination!
