There's a thief at Doggeroo Dog and Sausage Day and Jack soon finds he has a Sausage Situation on his paws. Who is the canine criminal? Surely not Lord Red, dressed up as a corn dog, or the Squekes, who look like hairy wasps in their striped suits. When Jack calls for backup, pan-dog-monium ensues. There is going to be a terrier-able disaster if someone doesn't take matters in paw. Jack is just the dog for the job. But will he be able to crack the case of - THE SAUSAGE SITUATION?
