isbn:9780394848839

Beginning with Thomas Edison’ s childhood, when he set up his first laboratory in his basement as a 10-year-old, and following through his many jobs before he was able to support himself as an inventor, this is the true story of the man who brought the world the phonograph, motion pictures, and even the electric light bulb—revolutionary inventions that forever changed the way people live.

“One of the most critically acclaimed, best-selling children’ s book series ever published.” — The New York Times

Margaret Cousins is also the author of the Landmark Book Ben Franklin of Old Philadelphia .
