著者:Walton, Darwin/ Franklin, Hal (ILT)

出版者:Independent Pub Group

出版时间:1974-2

装帧:HRD

isbn:9780874850451

This is a book that defines 'colour' for the intermediary grade child, using brief rhythmic text, a glossary of terms, and over 60 photographs in full colour. The significance and the insignificance of colour are brought out in rich imaginative treatment, based on scientific data. It is a book which can teach an important lesson in social studies. It contains 64 pages of photographs and text.
