Enslow presents a set of books for reluctant readers exploring the other great unknown of our planet--the ocean. (We know more about the dark side of the moon than we do about the deepest ocean floor ) Each book tells the adventure story of a person going under the sea and discovering something exciting, be it weird animals or smoking hydrothermal vents. Not only do these reluctant reader books present fascinating adventure stories, but they also support the ocean curriculum. These books contain a glossary, a further reading list, Internet sites, chapter notes, and an index.
