isbn:9780525472834

Jamie longs to be popular, but she never dreams of the fame that is suddenly hers after a private journal entry accidentally finds its way to her teacher, then a publisher, and her career as a bestselling author is kicked into motion. In no time at all she is caught in a swirl of book signings, power lunches, and photo ops. And the hottest guy in school finally knows her name! Could it get any better than this? Girls who love wish-fulfillment fantasies like *The Princess Diaries* will relish Jamie's foray into a world of glamour and glitz, which she ultimately decides is not nearly as satisfying as just being herself with her BFFs (best friends forever).
