isbn:9781579652418

Think you're too young? Think you're too old? Author Melanie Falick teaches kids of all ages how to knit with fifteen easy projects, from bouncy beanbags to a rolled-edge sweater. Using straightforward language, step-by-step instructions, and bright candy-colored illustrations, beginners learn the basics, including finer knitting, casting on and binding in the round and shaping. Phototgraphs feature finished projects modeled by a delightful case of young knitters. Best of all, kids get to have fun creating things they can actually use--bookmarks, backpacks, bracelets, and more.
