Today is a special day. It is Little Rabbit's first day of school and he has decided to bring along his favorite wooden toy, Charlie Horse. "Now we are big," Little Rabbit tells his mother. The busy classroom is crowded with little rabbits and lots of activities. His new teacher, Mrs. Morag, seems very happy to see him and Charlie Horse--that is, until Charlie Horse disrupts story time, dances on top of the desk during music time, and jumps into the cake batter at snack time. At the end of the day, even Little Rabbit realizes that Charlie Horse may not be ready for school after all. Harry Horse hits all the right notes in this gently humorous, reassuring story that depicts how one child copes with a big transition. Young readers will identify easily with the young character's conflicting desires for independence and reassurance.
