装帧:Pap

isbn:9780824968038

This book is suitable for ages 6 to 12 years. Fizz, gurgle, bubble, and brew! Hours of outrageous science fun await children with Jill Hauser's incredible science

concoctions. Children explore a world of amazing science - from capillary action to liquid density to emulsions to plastics - all while making magical mixtures they concoct themselves! This book features: over 50 safe inexpensive science mixtures, using household ingredients, encourage kids to discover and think creatively; explore density with hovering veggies, explode colors in milk to learn about molecular movement, and cross-link polymers to make plastic blobber; concoct sticky water, gooblek, jigglin' gelatin worms, lava, liquid lasagna, and creepy water ghosts; and simple experiments with spectacular results make the wonder of science accessible to every child.
