Twenty-five forensic mysteries are solved by CSI Wes Burton and his cast of quirky but lovable characters, including pathologist Dr. Crown, CSI technician Mike Trellis, Detectives Radley and Gibson, and Ed, the search-and-rescue border collie. Crime scenes include everything from exploding flour in a restaurant kitchen, to a boy who lies about eating a piece of cake, to a man who dies accidentally while tanning himself. Burton and his coworkers use science to prove that strangulation with a towel leaves unique imprints, that antique flowers are deadly, and that insects can tell a good story.
