Sometimes art can seem intimidating to kids - but collage, with its layering of already-existing images and materials, feels like something they can master. With this exciting new entry in "My Very Favorite Art Book" series, readers aged five and up will have a blast learning basic techniques and producing fabulous finished pieces. Each finished project is showcased in a full-page photograph or illustration - and because the text is kept to a minimum, even pre-readers can follow along. Jennifer Lipsey is a successful visual artist and arts instructor. She is currently pursuing her MFA at Western Carolina University. Her artwork consists mainly of abstract mixed-media paintings which are displayed throughout the Southeastern U.S.
