Plug in and rock out! Kids take center stage karaoke-style with a hip headset and a mixer that pumps their voice, over their favorite song, through the radio. Includes the headset as well as a wireless transmitter that also mixes the volume of music with the child's voice. Kids can personalize their mixer with any of the ten re-usable stickers included. Whether they practice singing alone or choose to perform for their adoring fans, rising stars are about to make their debut! Read all about it! This is no ordinary book it's just for kids who truly love music! From understanding how a song is constructed to reading musical notes, from learning the 12 steps of recording a song to getting tips on writing their very own words and music, kids will have new-sound appreciation for the art and science of being a musician.
