Between May 1892 and October 1893, the *Giornale degli Economisti* published Vilfredo Pareto's "Considerazioni sui principi fondamentali dell'economia politica pura" in 5 parts. Viewed in its entirety, the outcome is essentially a classic monograph on the fundamental issues in pure economic theory in the Lausanne tradition. Pareto's work forms a document of major historical significance which, to date, has only been unavailable to the relatively small number of international economists and historians of economics who read Italian. This first English language edition is therefore a significant landmark in the history of economics.
