This book presents an HRM scenario in a number of South-East Asian and Pacific Rim countries. It highlights the growth of the personnel/HR function, the dominant HRM system(s) in the area, the influence of different factors on HRM, and the challenges faced by HR functions in these nations. An excellent addition to this subject area, each chapter has been written by an area specialist. As the most topical and up-to-date book in its field, this outstanding book is suitable for both academics and practitioners in the field.
