As HR leaders know, successful staffing is about much more than just hiring qualified people. It's about hiring the right qualified peopleACA-and keeping them. To help you do that, On Staffing covers the new and innovative business initiatives managers from leading companies are using to assess the potential of people and place them in positions in which they can maximize that potential. It analyzes the practices that work, offers strategies for dealing with rapidly changing business and hiring environments, and helps HR leaders prepare for the changes and challenges to come.
