著者:Afriat, Sydney

出版者:Routledge

出版时间:2005-1

装帧:HRD

isbn:9780415323376

The book is not an unrestricted survey engaging a vast and repetitive literature, but a systematic treatise within clear boundaries, largely a document of Afriat's own work. The original motive of the work is to elaborate a concept of what really is a price index, which, despite some kind of price-level notion having a presence throughout economics, in theory and practice, had been missing.
