The concept to this book is a warm approach to the idea of: Only by working in a team will you fulfill your dreams. The focus of the book is on realizing one's dreams, achieving those goals by working in teams. Teams come in every shape and size--spouses in a marriage, colleagues at work, volunteers together for a good cause... It takes teamwork to make the dream work. There are no lone rangers. It's a myth that one person can do something great. Strong leaders who changed our country dreamed big and were successful because they were always part of teams. Like his previous three books, this one is filled with warm stories, mini-lessons in bullet form, Maxwell observations, and quotes.
