装帧:Pap

isbn:9780766821453

"Essentials of Contract Law" is an ideal guide for the paralegal student, the business law student and anyone preparing to work in the field of contract law. Using a road map as an outlining tool, the authors present the law of contracts in an understandable and organized manner. As a rule of law is presented, it is discussed

conceptually then followed by an example and a concrete problem. This allows the user to become actively involved in working with the rules of law. All facets of contract law are addressed, making this manual ideal for both study and on-the-job reference.
