A groundbreaking five-step framework for leadership transformation by a top consultant and a fresh approach for today's rapidly changing business world, "The Leadership Wheel" offers a vehicle for personal and organizational change. Sidle's dynamic plan begins with a look into the inner work of leaders--the work of personal development--and then it turns to external challenges--of developing healthy relationships, teams, and organizations. Sidle reveals a unique and powerful system already embraced by companies around the world, with examples of leaders such as David Neeleman at JetBlue, and transformative exercises.
