著者:Rosenfield, Paul

出版者:Routledge

出版时间:2006-7

装帧:HRD

isbn:9780415702065

With the collapse of Enron, and other similar scandals, financial reporting and its relation to corporate governance has become a contentious issue. In this revealing book, author Paul Rosenfield involves the reader in exploring contemporary financial reporting, and skilfully highlights the deficiencies in current methods. In doing so, it provides a user-oriented guide to the salient issues, which affect all aspects of financial accounting. "Contemporary Issues in Financial Reporting" challenges the reader to critically think through the issues and arguments involved in the practice of financial reporting. It goes to the heart of the most difficult and controversial problems, investigating the major issues and commenting upon the solutions offered in financial reporting literature. The grave defects in current accepted accounting principles are demonstrated and exposed, and alternative solutions are offered. Written by a former Secretary General of the International Accounting Standards Committee, practitioners and accounting scholars alike will find this volume to be an essential addition to their libraries.
