A true landmark publication, *Advances in Fisheries Economics* brings together many of the world's leading fisheries economists to authoritatively cover the many issues facing the field of fisheries economics and management today. Compiled in honour of the work and achievements of Professor Gordon Munro of the University of British Columbia, Canada, this exceptional volume of research serves as both a valuable reference tool and fitting tribute to a man whose work has shaped the discipline. Divided into four sections, the text includes coverage of: Property Rights and Fisheries Management Capital Theory and Natural Resources Game Theory and International Fisheries Applied Fisheries Economics and Management.
