"The FASB Current Text" is a topical integration of currently effective accounting and reporting standards. Material is drawn from FASB Statements of Financial Accounting Standards and FASB Interpretations, AICPA Accounting Research Bulletins and APB Opinions. Volume I (General Standards) contain those standards that are generally applicable to all enterprises. Volume II (Industry Standards) contain specialized standards that are applicable to not-for-profit organizations and enterprises operating in specific industries. Each year these manuals are updated to reflect changes in standards. Material not contained in the standards section of an original pronouncement is included where necessary to help the reader understand or implement the current text. It integrates financial accounting and reporting standards according to the major subject area to which they apply and contains a source reference to the Original Pronouncements.
