The laugh-out-loud romance and fresh, unpredictable take on the game of love continues! Ara is getting married...to Young-Woo! After signing the marriage certificate, the not-so-happy-lovin' couple moves to a new school and into a tiny studio near Young-Woo's grandfather. However, Young-Woo decides that he and Ara should act like strangers, so he sleeps on the floor and refuses to eat what she cooks. How did this mess happen to Ara...especially when she is really in love with someone else?! "Sweet with a little bit of bite! The artwork is crisp and clear...the plot is solid and enjoyable and the characters are amusing." -IGN
