One of the greatest historians writing today gives us a defining portrait of the

incomparable Churchill

Acclaimed historian John Keegan offers a very human portrait of one of the twentieth century's enduring symbols of heroic defiance. From Churchill's youth as a poor student to his leadership during World War II, Keegan reveals a man whose own idea of an English past- eloquently embodied in his speeches-allowed him to exhort a nation to unprecedented levels of sacrifice. The result is a uniquely discerning look at one of the most fascinating personalities in history.

It's an amazing brief with 100 pages to describe his life. It shocked me that he was an amazing orator who rallied England during the darkest days of WWII, whether it is a short biography covered a few aspects of his life, I am still aware of his supposed strategic blunders during WWI and the sheer volume of his publications.
