装帧:HRD

isbn:9781585678983

Speaking from the Heart presents the teachings of a woman of compassion, humor and extraordinary psychic gifts, who helped many people enjoy happier lives by helping them integrate their own previous life experiences and introducing them to her vigorous brand of ethics. By turns poetic, inspirational, down-to-earth, funny and wise, Joan Grant was never conventional and was always ready to help others. From records of early experiments with psychometry in the British Museum, to transcriptions of 'high level recordings' received during the Second World War, Grant's writings are the fruits of experience gathered over many lifetimes.
