"Management 9E", by John Schermerhorn, is based on constructive balances that are essential for success in business and management: the balance of managerial theory and practice; the balance of managerial ethics and positive action; and the balance of present realities with future possibilities. In this new edition, "Management, 9E" has been extensively revised with a sincere commitment to help instructors teach and students learn in today's complex and globally competitive environment. The subject matter has been carefully chosen to meet AACSB accreditation guidelines while allowing extensive flexibility to fit various course designs and sizes. Along with updates of core material, "Management, 9E" offers a number of changes in the organization, content, and design that respond to current themes and developments in the theory and practice of management.
