This unique annual collection of key economic and statistical data on the world's small states - those with fewer than five million inhabitants - is an essential reference for

economists, planners and policy makers. The book contains fifty-one tables covering selected economic and social indicators culled from international and national sources and presents information unavailable elsewhere. A detailed parallel commentary on trends in Commonwealth small states, looking at growth, employment, inflation and economic policy issues, permits a deeper understanding of developments behind the figures. The book also includes two topical articles, on 'Culture as the Fourth Pillar of Sustainable Development' by Dr. Keith Nurse, Senior Lecturer, Institute of International Relations, University of the West Indies, Trinidad and Tobago, and 'Enhancing the Competitiveness of Small States', by Ms Monique Pollard, Economic Affairs Division, Commonwealth Secretariat.
