"The Entrepreneurial Mom" is an informative and inspiring book for all women who want to start their own business but lack the knowledge and managerial experience needed to run a business and manage a family too. A great tool for women who are looking for answers, it teaches women how to find quality childcare, organize homes and offices, make sales calls and conduct negotiations, maximize family time, network with others, and manage depression, spirituality, self-esteem, and working beyond the expectations of others. Also included are insurance considerations for entrepreneurial moms and "50 Time Savers and Stress Reducers for Today's Entrepreneurial Mom."
