isbn:9780136149903

This book was the first to thoroughly integrate the use of Microsoft Excel as a tool for

statistical analysis. The book focuses on the concepts of statistics with applications to the functional areas of business. It is rich in applications from accounting, finance, marketing, management and economics, covering data collection, tables and charts, probability, estimation, and more. For professionals, particularly managers, making financial analyses and decisions.

STA2000. Statistics; Prof. Annette Gourgey; (Spring 2010; Tue, Thu 7:35 pm-8:50 pm)
Great textbook & it's excellent for STA beginner.

封面咋长的不太一样
