出版者:Palgrave Macmillan

出版时间:2005-12

装帧:HRD

isbn:9781403942449

Elias G. Carayannis conducts a state-of-the-art survey on practices for economic development in the knowledge economy, including an in-depth investigation in the fundamental concepts and instrumental methodologies of the field. The book includes thirty-two case studies which are analyzed in multiple dimensions relevant to a worldwide e-development.
