出版者:McGraw-Hill College

出版时间:2005-5

装帧:Pap

isbn:9780072983227

This is a book of hypothetical cases written to give students real examples of key finance concepts. Each case contains a strong critical thinking/analytical component. The cases match topics covered by all of our undergraduate books, making it the perfect companion. Each case is 3-4 pages in length, and concludes with questions and problems that walk students through calculations and critical analysis of the case to help them make business decisions.
