Resumes are dead.

Now comes the age of the Bioblog. Until now, resumes have been nothing more than boring lists of past accomplishments. Here, noted author Michael Holley Smith

presents the groundbreaking and revolutionary alternative: Bioblogs. What is a Bioblog? It is a stunning, attention-grabbing, graphics-based art form that workers of the future will use to get hired by the best employers. A Bioblog will make you, as a knowledge worker, stand out from the pack of job seekers. It will present a unique version of you and tell employers what you can do for them in the future, as opposed to what you have done for different employers in the past. The old standard is no more. Bioblogs are the resumes of the future.
