Get this handy roadmap to making money in the commodities market.

Getting Started in Commodities shows you how to successfully invest in the commodities market in futures, stocks, stock indices, and options. The book explains how the commodities market works as well as how investors can identify and track commodity opportunities -- using fundamental factors such as supply and demand and technical analysis tools. Fontanills, a seasoned trader and educator, also explains the basis of money management, teaches you how to find the best broker, and how to read seasonal chart patterns. Finally, he explores how to build a winning system and test and adjust it for success. Helpful appendices of contract specifications and additional readings are also included.

George A. Fontanills (Miami, FL) is the President Emeritus of Optionetics, the world leader in options education and is also a retired hedge fund manager. Fontanills has written many books, including Trade Options Online (0-471-35938-6), The Volatility Course (0-471-39816-0), and The Volatility Course Workbook (0-471-39817-9).
