isbn:9781593574178

Employers need workers with good skills. However, most people find it difficult to identify the skills they already have. Knowing your skills is important in the job search for writing resumes, interviewing, and showing employers your value. Plus, people are happier doing jobs they are good at and that use their skills. With nearly 100 "best jobs"

lists and 265 job descriptions, this ground-breaking book helps readers identify their best skills and then connect them to the best jobs.
