著者:Proops, John (EDT)/ Safonov, Paul (EDT)

出版者:Edward Elgar Pub

出版时间:2004

装帧:HRD

isbn:9781843762225

"This book focuses on modelling in ecological economics and offers a comprehensive overview of current and emerging methods of applying mathematical, computational and conceptual methods to environmental issues." "In each of the specially commissioned chapters, the expert authors have tried to limit the level of complexity to create a unique and accessible resources. As such, this book should have a wide appeal amongst scholars, researchers and students with an interest in modelling techniques and their use in ecological and environmental economics."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
