The fusion of know-how and capital from Hong Kong and Taiwan with the substantial labour resources on China has led to the emergence of a dynamic economy of 'Greater China' rivalling the USA, the European Union and Japan. What is the nature and trend of trade and investment within Greater China? What are the impacts on the world economy? With China's entry into the WTO, what are the problems and prospects of Greater China? These are some of the issues raised within Yun-Wing Sung's book.

作者介绍:

YUN-WING SUNG is Chairman of the Department of Economics at the Chinese University of Hong Kong. His research interests include the economic integration of Greater China and the economic development of Yangzi Delta and Pearl River Delta.
