Joe Sinnott is a true living legend. During his 56-plus-year career in comic books, he has worked in every genre, and for almost every publisher. "Brush Strokes With Greatness" celebrates the storybook career of the versatile artist, as he demonstrates

his passion for his craft. In it, Joe shares his experiences working on Marvel's leading titles, memories of working with Lee and Kirby, and rare and unpublished artwork from his personal files. This book features dozens of colleagues and co-workers paying tribute to Joe and his amazing body of work, plus an extended art gallery and a checklist of Joe's career. Don't miss this once-in-a-lifetime celebration of all things Sinnott, which includes a foreword by Stan Lee, and an afterword by Mark Evanier.
