A New York Times Bestselling Author Nearly every day, in towns and cities across the world, groups of Catholic laymen known as the Knights of Columbus gather together. In the mid-19th century Father Michael J. McGivney dedicated his life to the spiritual and physical welfare of others, creating the K of C to provide insurance for the protection of widows and orphans. This devout, hardworking man of God saw strong family as the foundation of his parish, the church, and society itself.
