This is a fascinating account of the life of one of the century's great eccentrics - the brilliant Antoine de Saint-Exupery. Born in 1900 of impoverished aristocracy, he swiftly developed a mania for aviation, despite his chaotic mind and total technological incompetence. He flew reconnaissance missions in the War and wrote some strange and wonderful books, including the classic children's story "The Little Prince", between theatrically executed airplane crashed. He died in the air in 1944, and his brief life instantly acquired mythical status. 'Every facet of Saint-Exupery's short and dramatic life is covered in this fascinating biography. This is Stacy Schiff's first book, but she writes with all the skill, assurance and mastery of an old literary hand. If there was such a thing as a prize for a first biography, I would nominate this book' - Frank McLynn, "Sunday Telegraph".
