[incr\_tcl/tk]- the object-oriented extension to Tcl/Tk - saves programmers development time. There are currently 150,000 [incr\_tcl/tk] users and growing. [incr\_tcl/tk] is used for everything from scientific applications, such as flight software for the Mars Pathfinder, to business applications, such as stock watching. First to

market - there are no other books available on [incr\_tcl/tk]. "This book will make it easier than ever for people to use [incr\_tcl/tk]. "This book will make it eaiser than ever for people to use [incr\_tcl/tk]" - John Ousterhout, CEO of Scripts and author of the Tcl language. Explains how to write streamlined code, build integration applications and GUIs, and provides real-world examples.
