A guy is having an affair with his bosss wife. They are making mad passionate love, and she says, "Kiss me! Kiss me!" He looks at her very seriously and replies, "I shouldnt even be doing this!" This isnt a memoir like most memoirs. Its a book only Bob Newhart could have written, with his unique worldview and irrepressibly wry humor on every page. Oh, and theres a fair bit of plain silliness too. In this, his first book ever, Newhart gives his brilliant and bemused twist on a multitude of topics, including flying, the trials of a family holiday in a Winnebago, and more serious subjects, such as gold. And of course, there are side-splittingly funny stories from his life and career. Who else has a drinking game named after him? ("Hi Bob!")
