出版者:Capstone Pr Inc

出版时间:2000-9

装帧:SAL

isbn:9780736806527

Get students' blood pumping and their minds jumping Full-color photographs and basic diagrams support simple text to introduce the main systems of the human body, one at a time. This fascinating series will make learning the science of the human body easy to digest even for beginning readers. This series explores and supports the standard "The Human Organism: Basic Functions," as required by Benchmarks for Science Literacy: Project 2061
